

Fire Cleanse — Fireplace & Wood Stove Cleaner

Soot and baked-on residue. Water won't shift them — this will.

BH0205

In short

- 750 ml, ready to use — no diluting
- Dissolves soot, tar and carbon deposits
- For fireplace glass, wood stoves, grates and inserts
- Works on cold or barely warm glass
- Sprayer not included — an old trigger head fits

How to use it

Ready to use, no diluting. Spray from about 30 cm, leave it to work and, if needed, scrub with a non-abrasive sponge. For heavy build-up, leave it longer or repeat. Oven and ceramic glass should be cold, or better still, warm.

Worth knowing before you buy

- DANGER. Causes severe skin burns and eye damage.
- Wear protective gloves, eye protection and protective clothing. Do not breathe the spray or fumes.
- If it gets in the eyes: rinse cautiously with water for several minutes, remove contact lenses if easy to do, keep rinsing, and call a poison centre or doctor immediately.
- If it gets on the skin: take off contaminated clothing straight away and rinse the skin with water.
- Harmful to aquatic life with long-lasting effects — don't pour leftovers out into the environment.
